

OPEN CIRCULAR ELEVATOR TYPE CE

Circular Elevator type CE,
open sanitary version, used for vertical
transport of e.g. food products.
The circular elevator is environmentally
friendly and cleaning-friendly as well as
resource-saving in that it is:

- Easy to service
- Maintenance free
- Effective

The circular elevator is, among other things,
intended for the food industry, where very
high sanitary requirements are placed on
the equipment of machines.
The circular elevator is suitable for
transporting e.g.:

- Coffee powder
- Milk powder
- Sugar
- Granules
- Grain products
- Fish feed
- Tablets
